Sedimentology Day 1
Thursday, January 21st
Morning Session
Class Meeting

Goals:
1. Familiarize the class with the Sedimentology website. The website is brand new, so any and all feedback would be helpful. Link: http://www.sedimentology.uconn.edu
2. Look through the syllabus on the website and make sure all aspects are clear (especially the grading breakdown). Experiment with using the website to post to the discussion board or the class blog.
